How to Download Paramount Plus Movies?

As a professional Paramount+ video downloader, CleverGet Paramount Plus Downloader helps you download Paramount+ movies at up to 1080P resolution with desired subtitles and audio tracks. The below guide shows you how to use CleverGet Paramount Plus Downloader to download movies and shows on Paramount Plus.

Step 1: Download and Install CleverGet Paramount Plus Downloader

Download and install CleverGet Paramount Plus Downloader on your computer. Make sure you have downloaded and installed the right version of CleverGet program according to your computer system.

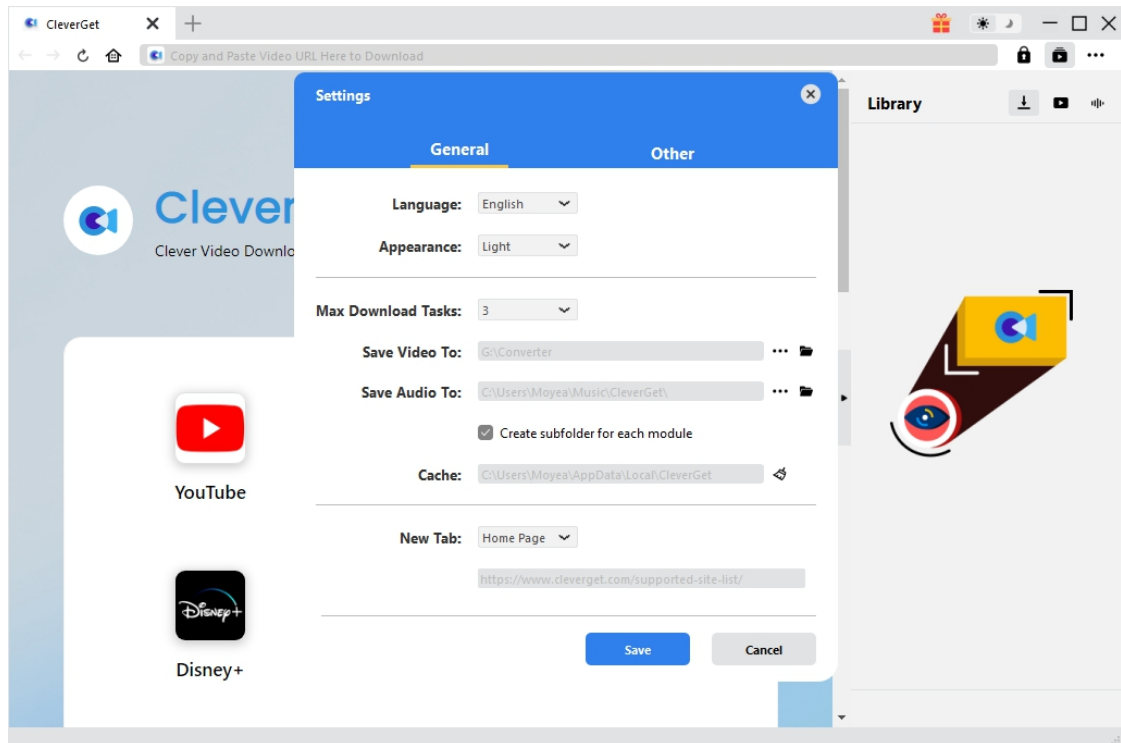

Note: CleverGet Paramount Plus Downloader is a component of [CleverGet](#) program.

Step 2: Set Output Directory

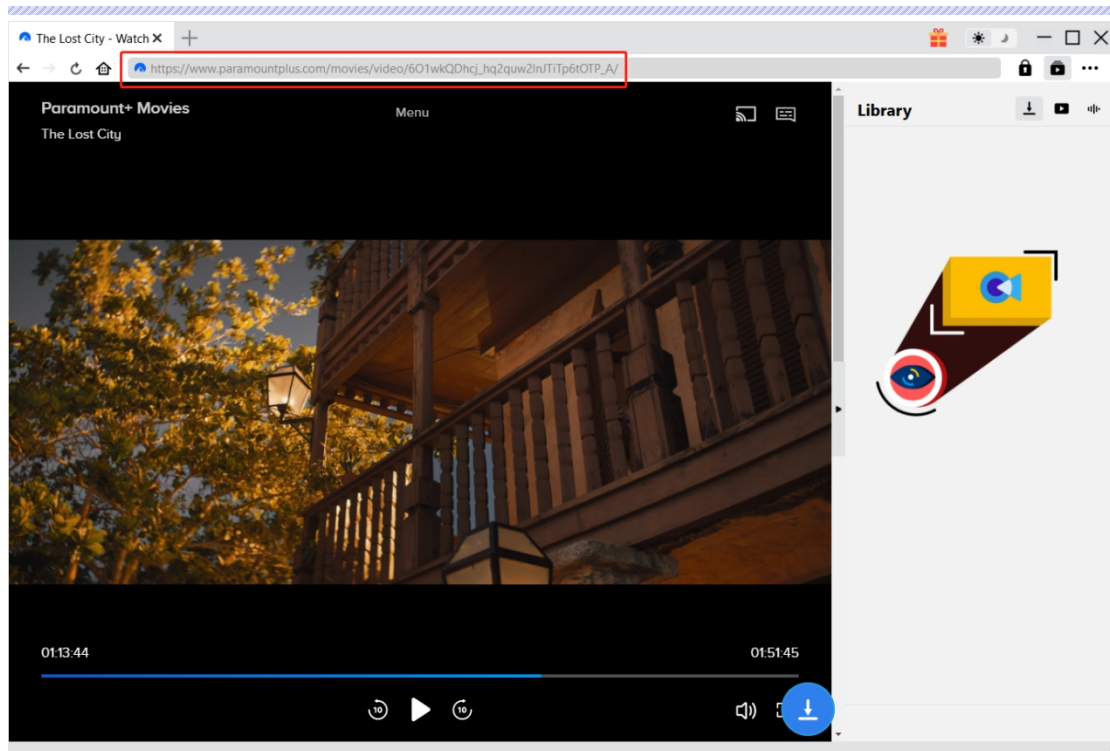

CleverGet has default download directory, but allows custom change. On CleverGet program, click the three-dot icon **⋮** and then click “Settings” option to open “Settings” panel. Under “General” tab, you can set output directory in the “Save Video To” and “Save Audio To” boxes and

change other settings like program UI language, appearance, max download tasks, etc. Checking “Create subfolder for each stream service” option will save online videos in related sub-folder according to video website. Finally, click “Save” button.

Step 3: Search for Target Paramount Plus Video

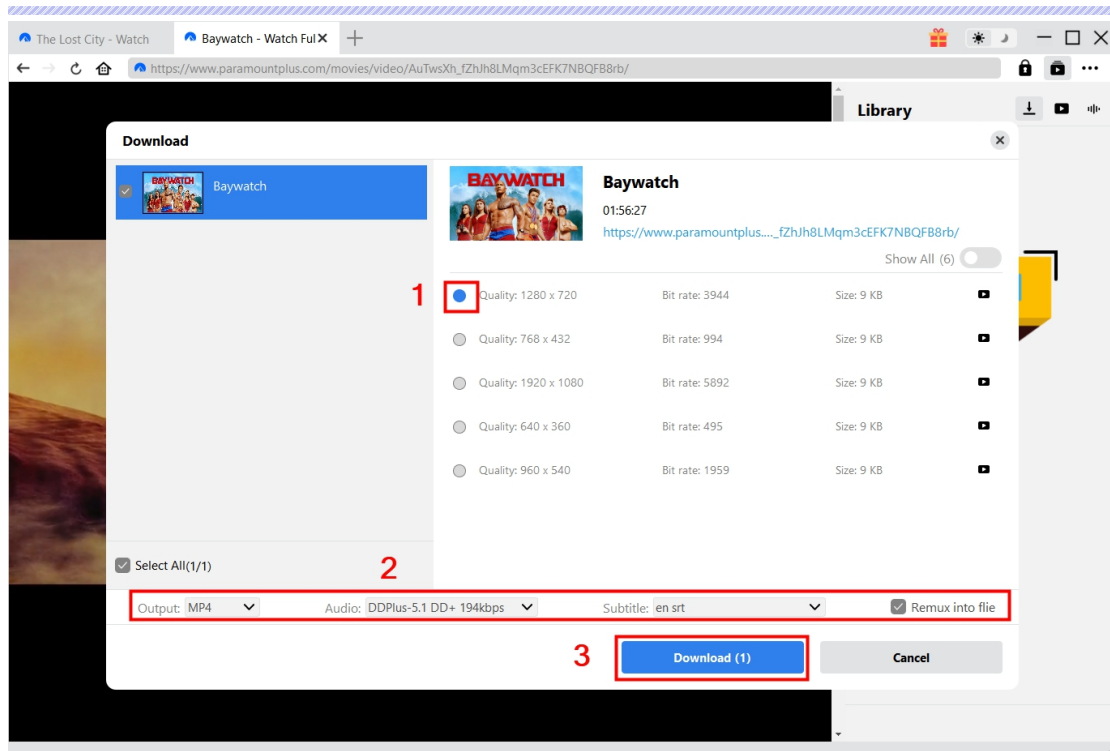

You could directly copy and paste Paramount Plus video URL into the address bar to open, play and download Paramount Plus video within CleverGet. CleverGet allows you to log into Paramount Plus with your own account and password. Also, you could open Paramount Plus home page within CleverGet program, log in and then search for target video for downloading within CleverGet.

Note: Make sure you have entered the playback page of target Paramount+ video before you let CleverGet analyze the Paramount+ video URL as showed in the next step.

Step 4: Select Paramount Plus Video and Download

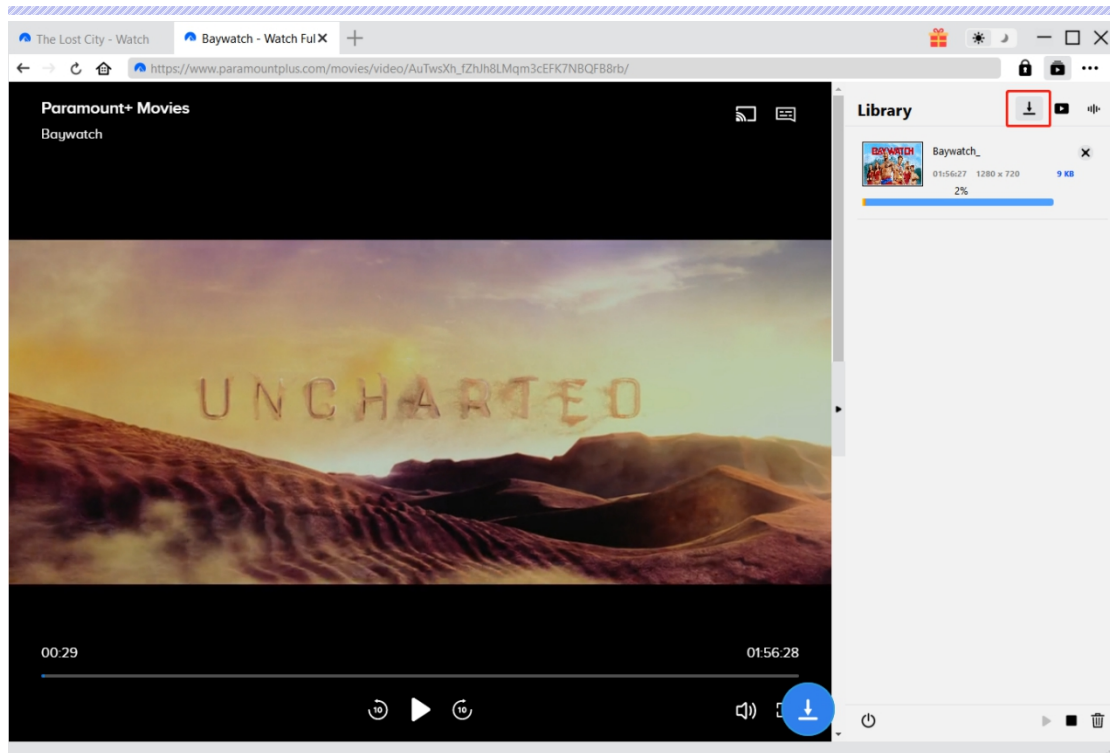

Once you have entered the Paramount Plus video playback page, click the download icon  at the bottom right corner to let CleverGet Paramount Plus Downloader parse the video URL. If CleverGet Paramount Plus Downloader successfully parses the video, it will pop up a “Download” interface with all available download options listed in different quality/resolution, frame rates and sizes. Below the video result panel, you could see options for Output, Audio Tracks and Subtitles setting. Select the video, audio tracks, subtitles and output format, and decide whether or not to remux subtitles into output video. And then click “Download” button to start downloading Paramount Plus series/movies.

Note: Subtitles will be packed into output video if you check "Remux into File" option. Otherwise subtitles will be saved in either SRT or SUP format separately.

Step 5: Check Downloading Process

Once you have started a Paramount Plus video downloading task, there will pop up a sidebar on the right side, showing you the downloading progress under the "Downloading"  tab. You could view the downloading progress and speed. Click "Close" icon  to end and delete the task anytime you like.

Step 6: Check Downloaded ParamountPlus File

When downloading completes, it will automatically open the downloaded panel under the "Video" tab . Click "Play" button on the thumbnail of downloaded file to play it or click "Open Folder" to open file in its exact location. Right click to play it with [Leawo Blu-ray Player](#), delete it, delete all downloaded tasks or open source web page.

How to Set CleverGet

On CleverGet, click the three-dot icon to call out multiple options on the drop-down menu, including: Buy Now, Register, Settings, User Guide, Support, Review, Bug Report, About and Check for update. Click any option to get any help you want.

To set CleverGet, click the “Settings” option to enter “Settings” panel. After all settings are finished, click “Save” button to save all changes.

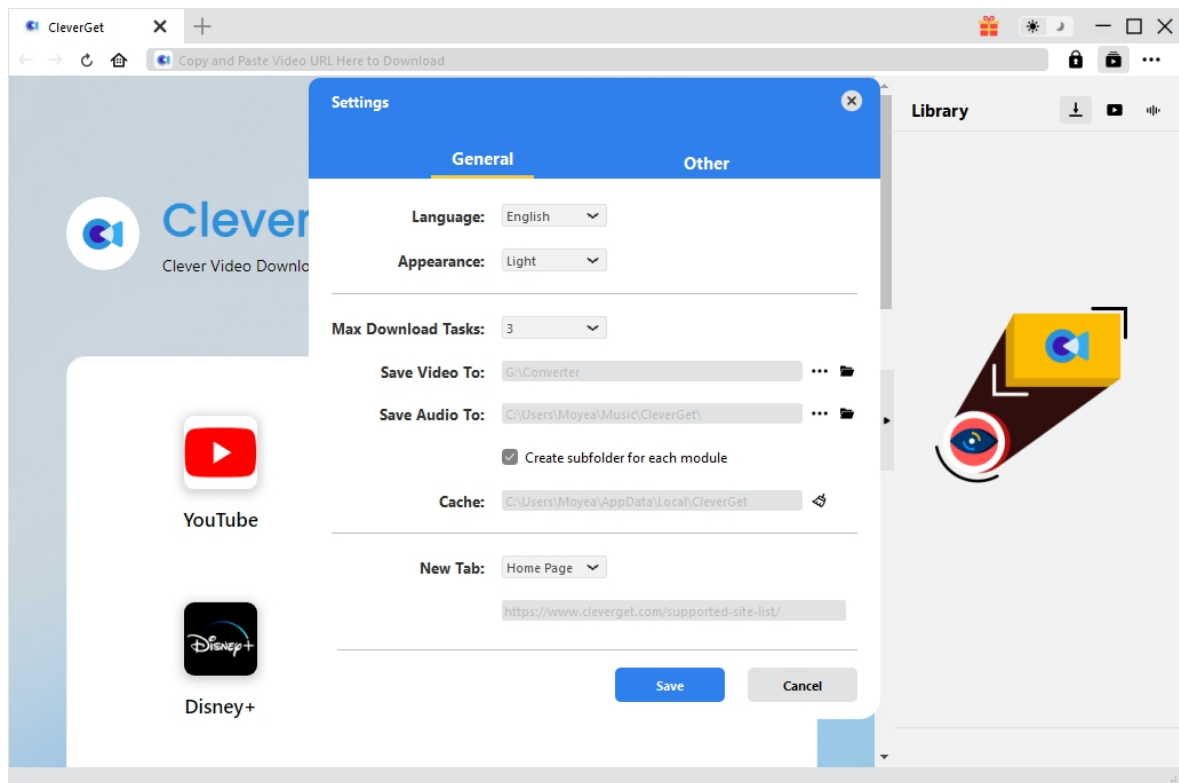

There are 2 tabs on the “Settings” panel. Here we introduce them one by one.

General Tab

In the “General” tab, you can find almost all basic settings that you may need. Here we have:

1. **Language:** You can change interface language in this section, where 5 languages are selectable.
2. **Appearance:** It allows you to switch between light and dark mode and you are able to change it directly by clicking “Light/Dark Mode” icon  on the main page.
3. **Max Download Tasks:** Ranging from 1 to 5, maximum volume of download tasks are changeable.
4. **Save Video To:** View default directory for saving downloaded videos, and change it according to personal preferences.

5. **Save Audio To:** View default directory for saving downloaded audios, and change it according to personal preferences.
6. **Create subfolder for each stream service:** Automatically create subfolders for all modules and save and classify downloaded videos to corresponding subfolders.
7. **Cache:** Show you the program browser cache and option to clear cache in one click, aiming to help fix issues like program crash, program getting stuck, etc.
8. **New Tab:** Choose to open a new tab to default page or blank page.

Other Tab

Open Other tab to enable/disable “Automatic Update” feature and set frequency that you suppose CleverGet to check for update within “Check the Update” button.

The image shows a screenshot of the CleverGet application's settings window. The window is titled "Settings" and has two tabs: "General" and "Other". The "Other" tab is currently selected. In the "Other" tab, there is a toggle switch for "Auto update check:" which is turned on. Below it, there is a dropdown menu for "Check the Update:" set to "Everyday". At the bottom of the settings window, there are "Save" and "Cancel" buttons.

The background of the application window shows the CleverGet logo and the text "Clever Video Downloader. Get Any". Below this, there is a grid of social media and video platform icons: YouTube, Netflix, Facebook, Twitter, Veoh, Bilibili, Crackle, FOD, MetaCafe, and MySpace.
