Brief Introduction

CleverGet is a formidable video downloader to download online video, download TV shows, download Live streams videos and music videos in up to 8K resolution from more than 1000 websites. It downloads from well-know social medias like YouTube, Twitter, Vimeo, Twitch, BBC, MySpace, Dailymotion, etc. Live streams are downloaded easily as M3U8 link are grabbed by CleverGet automatically. Just go to the video site, and this clever video downloader will get videos you want with ease. What's more, with built-in browser and player, it covers all aspects in searching, downloading and playing back videos. Downloaded high resolution video with 320 Kbps audio quality ensures your immersive viewing.

Main features:

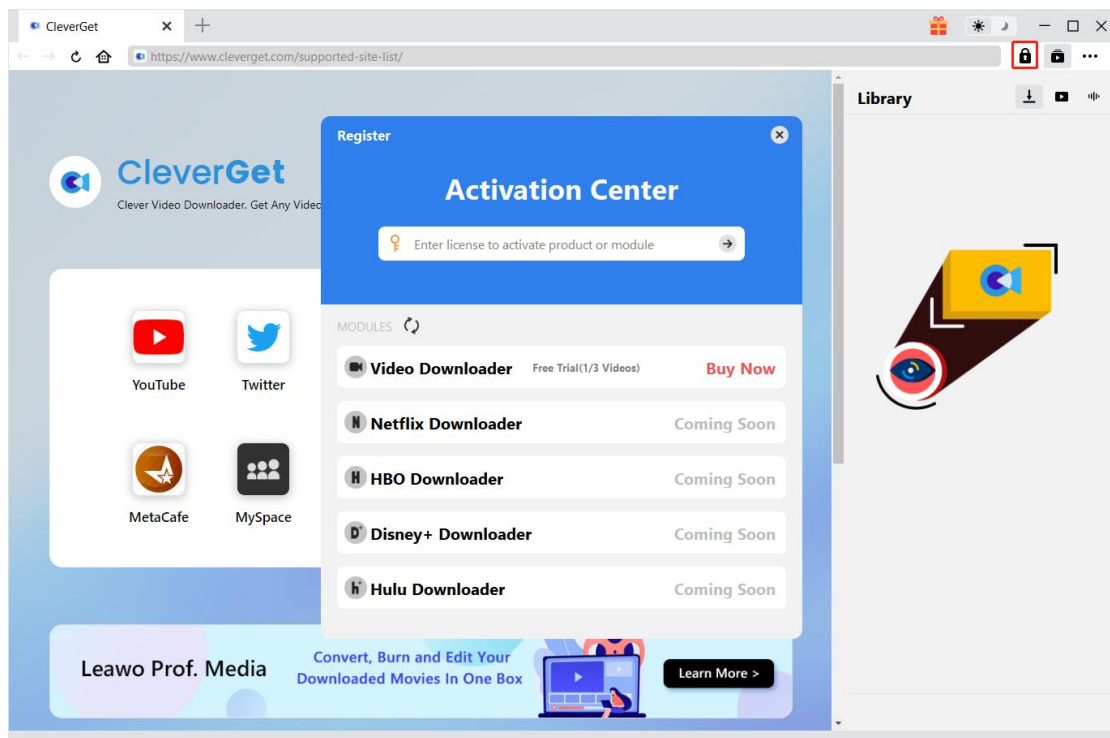

1. Download online videos from 1000+ sites
2. Download popular social medias like Facebook, Twitter, Tiktok, YouTube, etc.
3. Download live streams
4. Grab M3U8 links automatically
5. Built-in player and browser
6. High speed of downloading
7. Support multi-tasks downloading
8. Provide precise video information

How to Register CleverGet

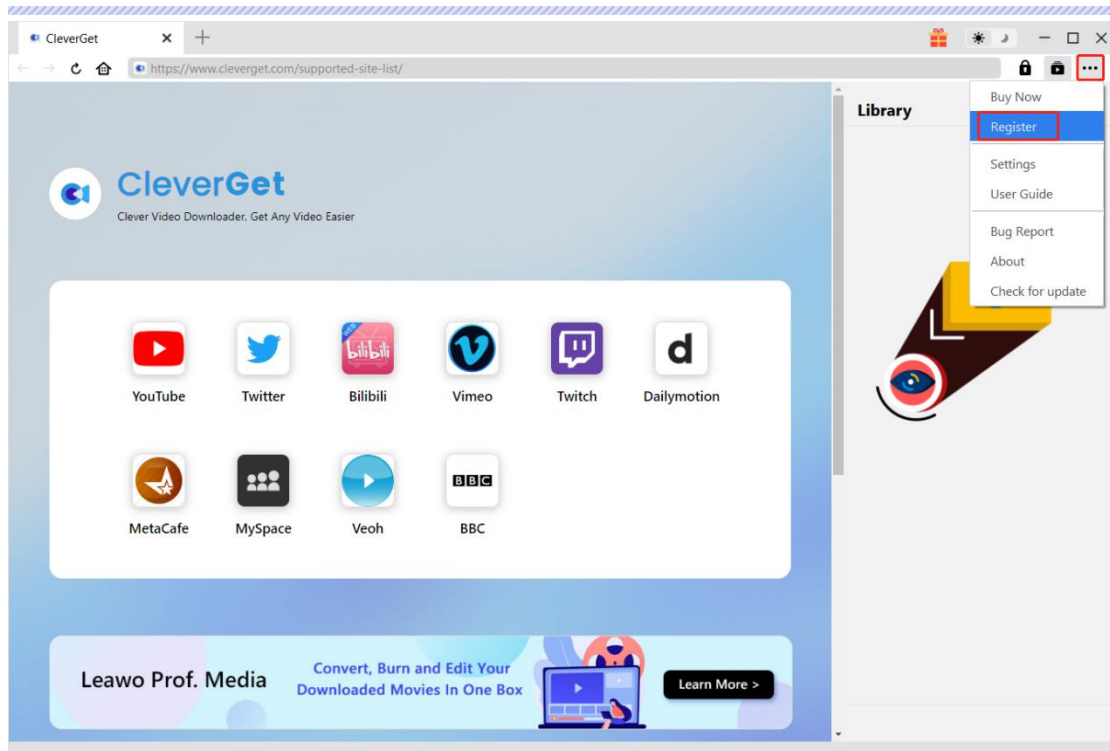

1. Activate with registration code

Two ways of registering in the program are available:

- a. Click the “Activate” button  on the top right corner to enter “Activation Center”. Copy and paste the registration code into the code box. Tap “Enter” key on keyboard or click  to activate.

- b. Go to more options  and find “Register” to enter “Activation Center”.

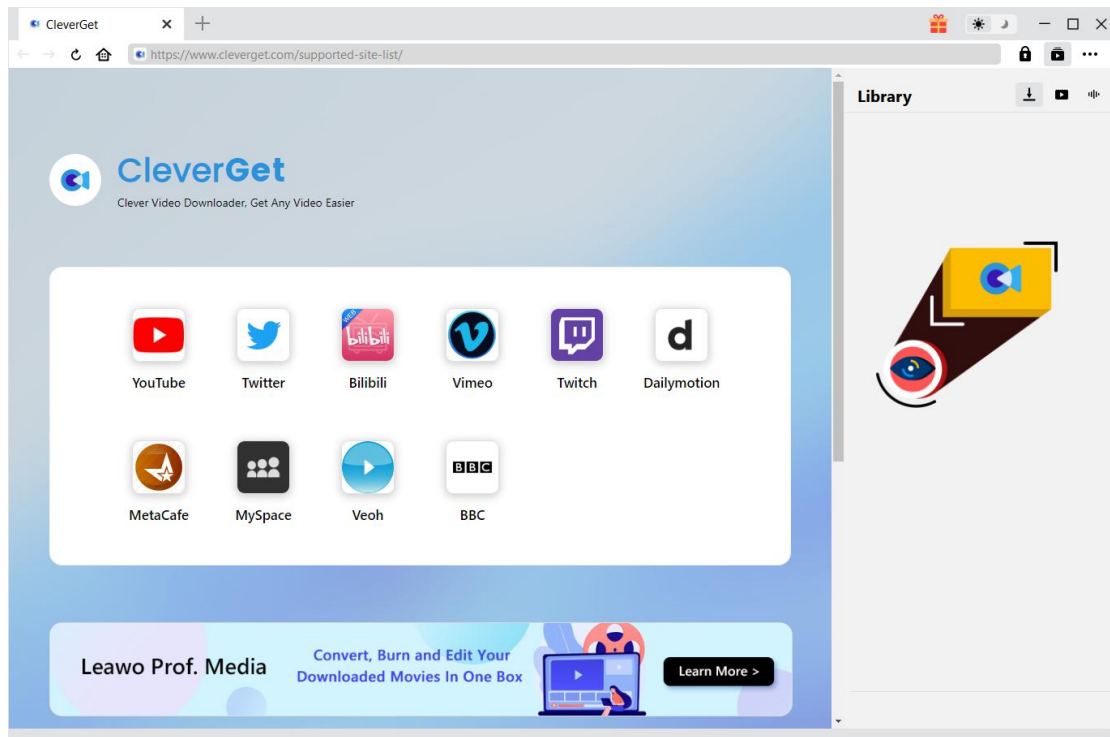

2. Get registration code

On the “Activation Center”, choose the modules that you want to get registration code for and then click “Buy Now”. After you click the button, it’ll take you to the purchase page of CleverGet, where you can purchase the registration code for all modules. Select validation (1-year or lifetime) of licence according to your needs and then click “Check Out Now” to go to the payment page. Fill in the information it needs in the payment page and pay for the bill. The registration code will be sent to your E-mail box after you finish the payment in no time.

How to Download Online Video or Live Stream

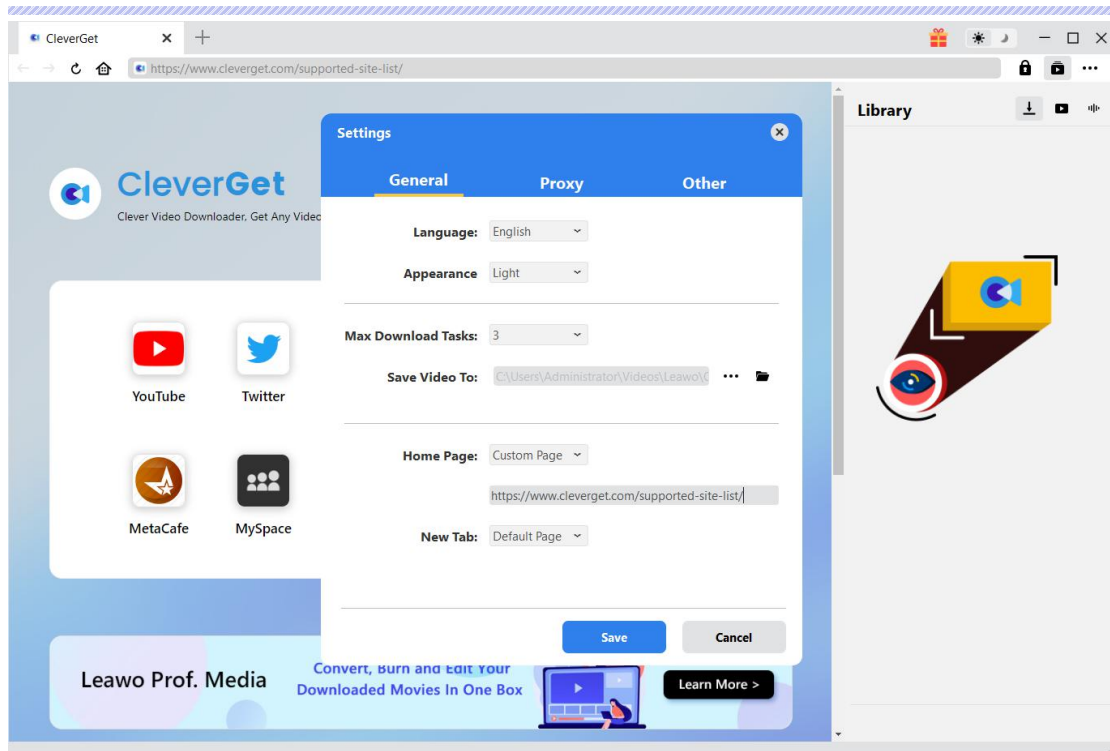

Step 1: Download and install CleverGet

Go straight to the official website of CleverGet to download installation package. It is free to download and install.

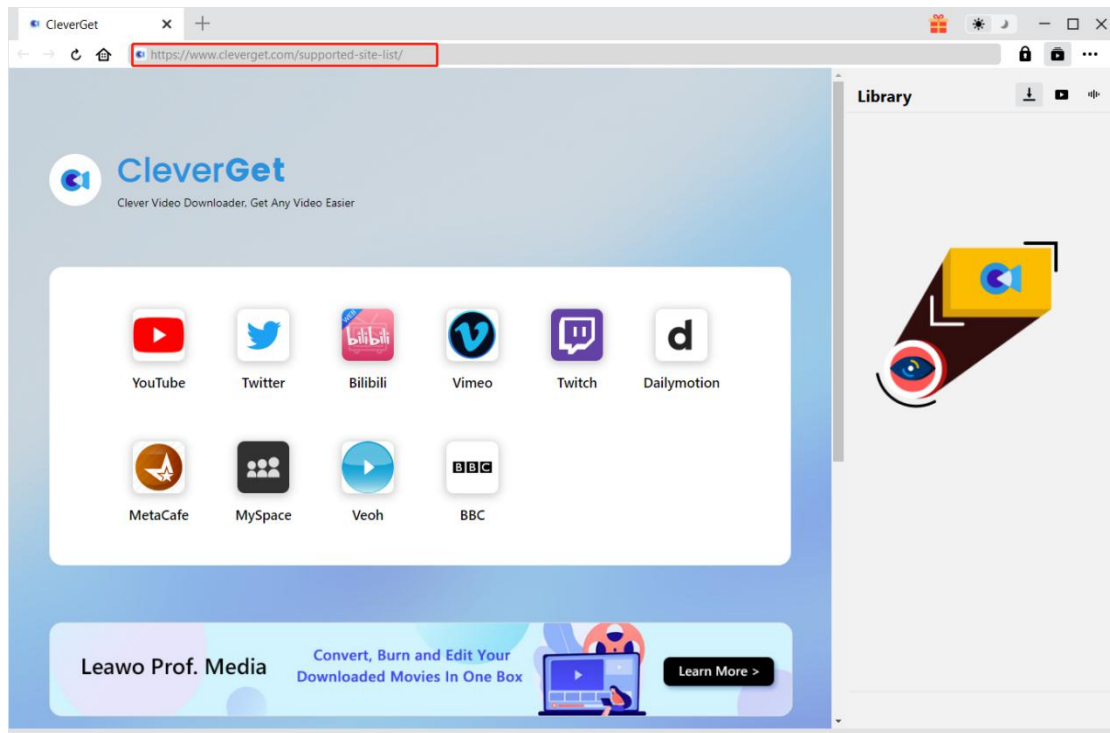

Step 2: Set Output Directory

Before you start downloading online video or downloading live stream, you should set output directory. Click the three-dots icon **⋮** and then "Settings" to pop up detailed settings panel. Under "General" tab, you can set output directory in the "Save Video To" box and change other settings. Finally, click "Save".

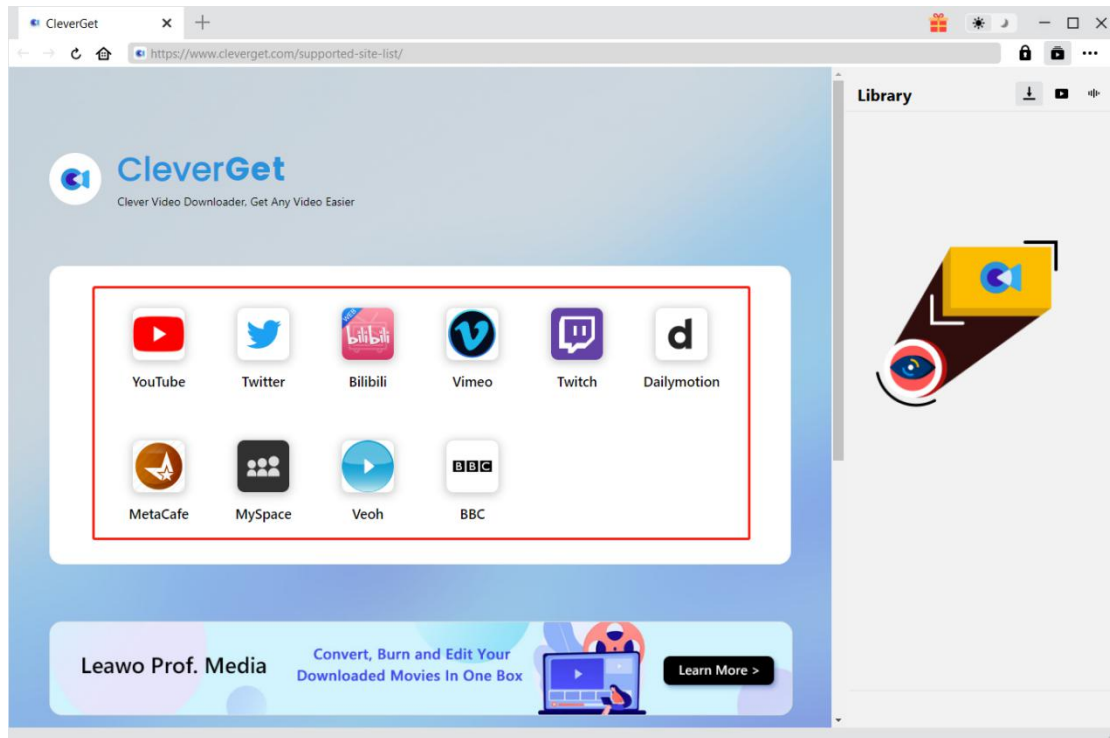

Step 3: Open target video page

Fill in website of the target video in the address bar and tap “Enter” on the keyboard. You don’t need to look for the M3U8 link of live stream as CleverGet will grab it automatically.

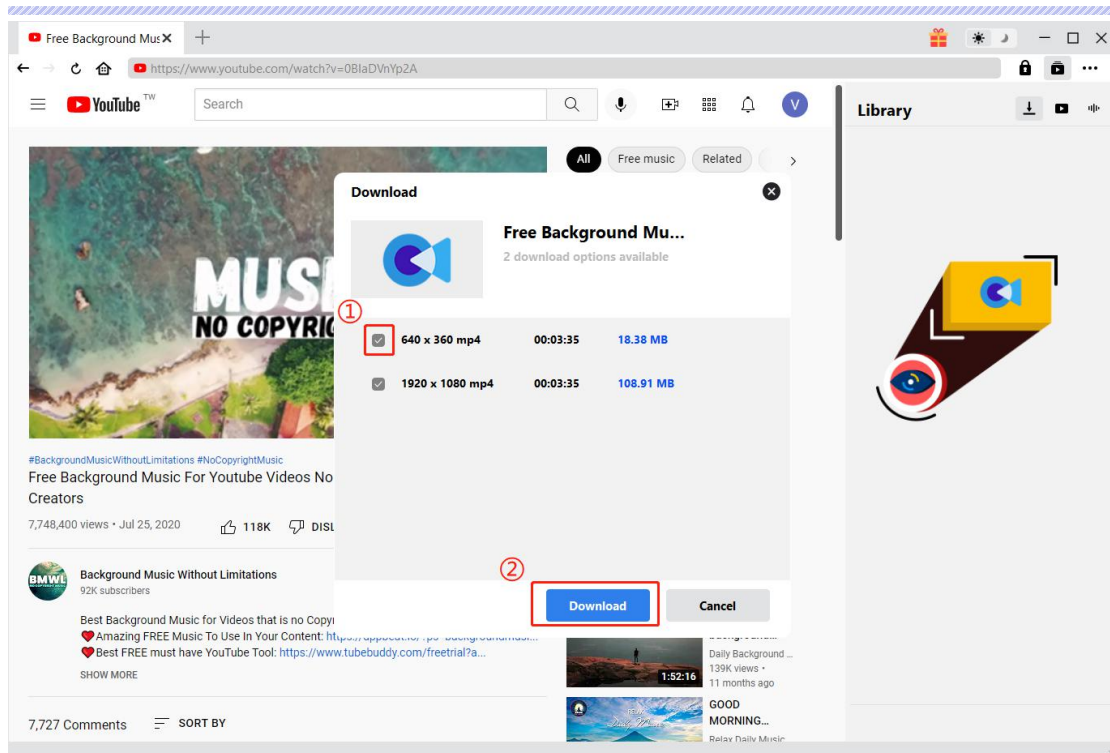

You can also click the icon of popular social medias to stream them directly. Then search videos in

these social medias with on-site search tools.

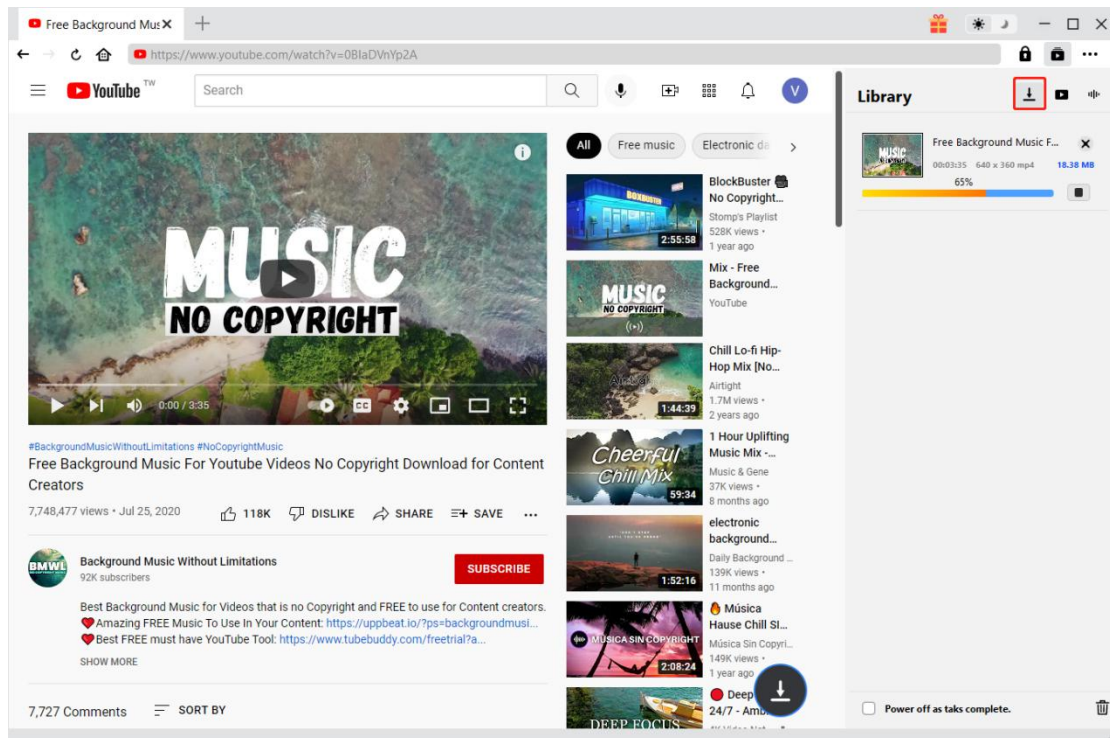

Step 4: Download Video

Once you open a video link, CleverGet will detect available sources to download. Videos are listed in different formats, sizes and resolutions. Select desired video download option(s) and then click "Download".

Step 5: Check Downloading Process

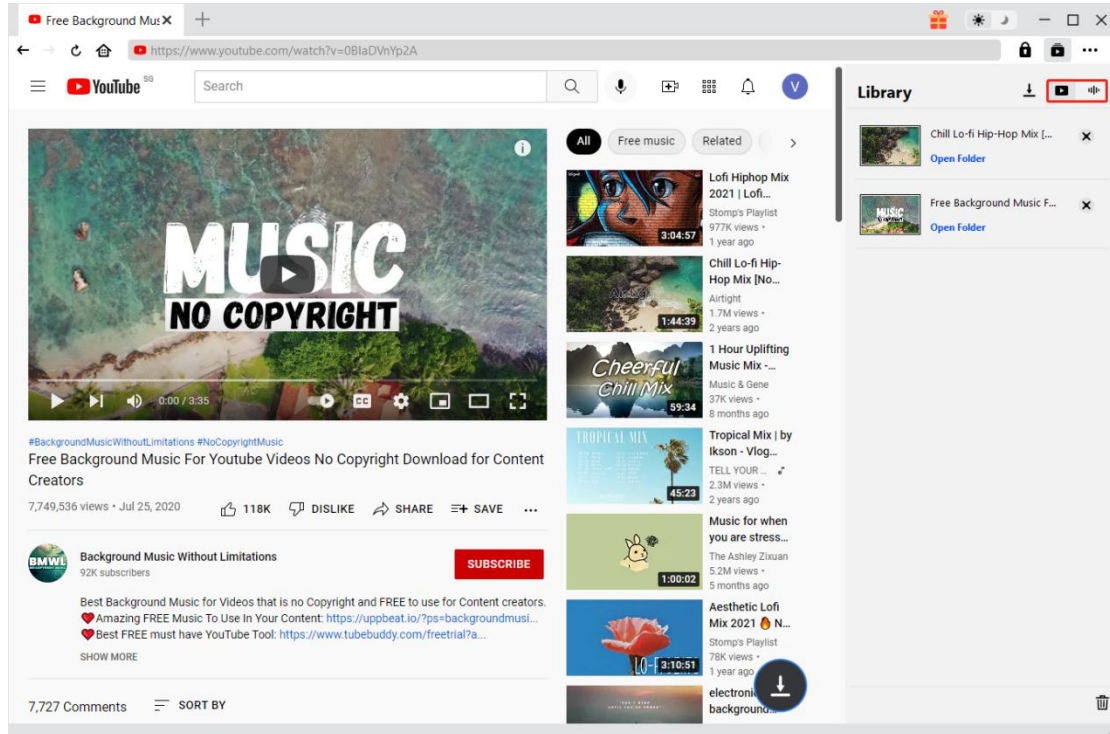

Click "Downloading" icon  to check out the video you are currently downloading.

Click “Stop” icon  to stop the proceeding task and “Close” icon  to end the task.

Step 6: Check Downloaded File

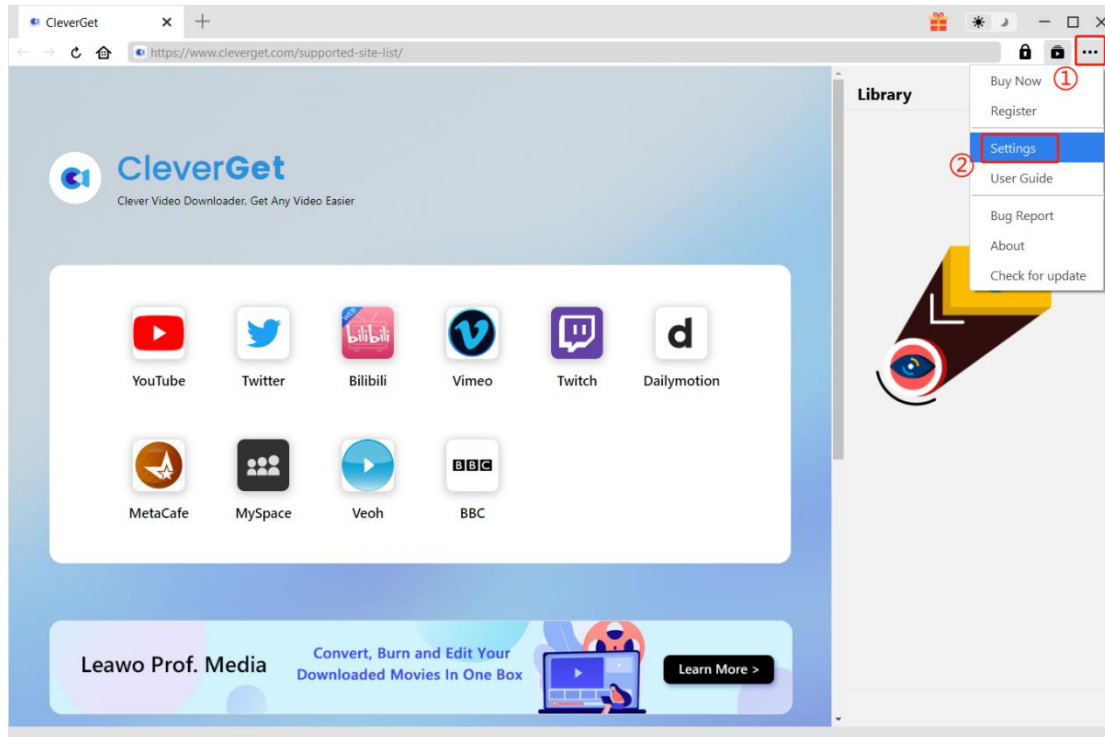

When the process of downloading is finished, you can check downloaded files according to file types: video or audio.

Double-click downloaded file to play it or click “Open Folder” to open file in its exact location. Right-click file to choose to play it with Leawo Blu-ray Player, delete it, delete all or open web page where it was downloaded.

Settings Panel in CleverGet

CleverGet is user-oriented and there are abundant settings for facilitating operation and improving user experience. Users can click three dots icon to look for “Settings” to enter settings panel. After all settings are finished, click “Save” to save all changes.

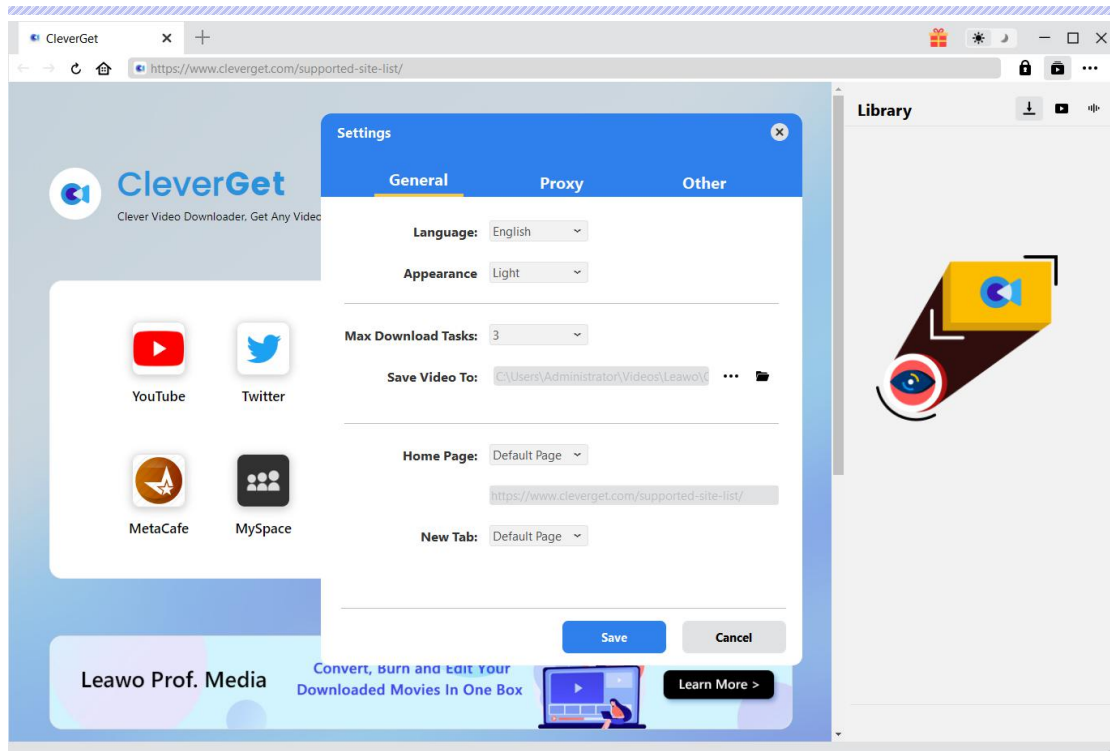

There are 3 taps in the settings panel. Here we introduce them one by one.

General tap

In the “General” tap, you can find almost all basic settings that you may need. Here we have:

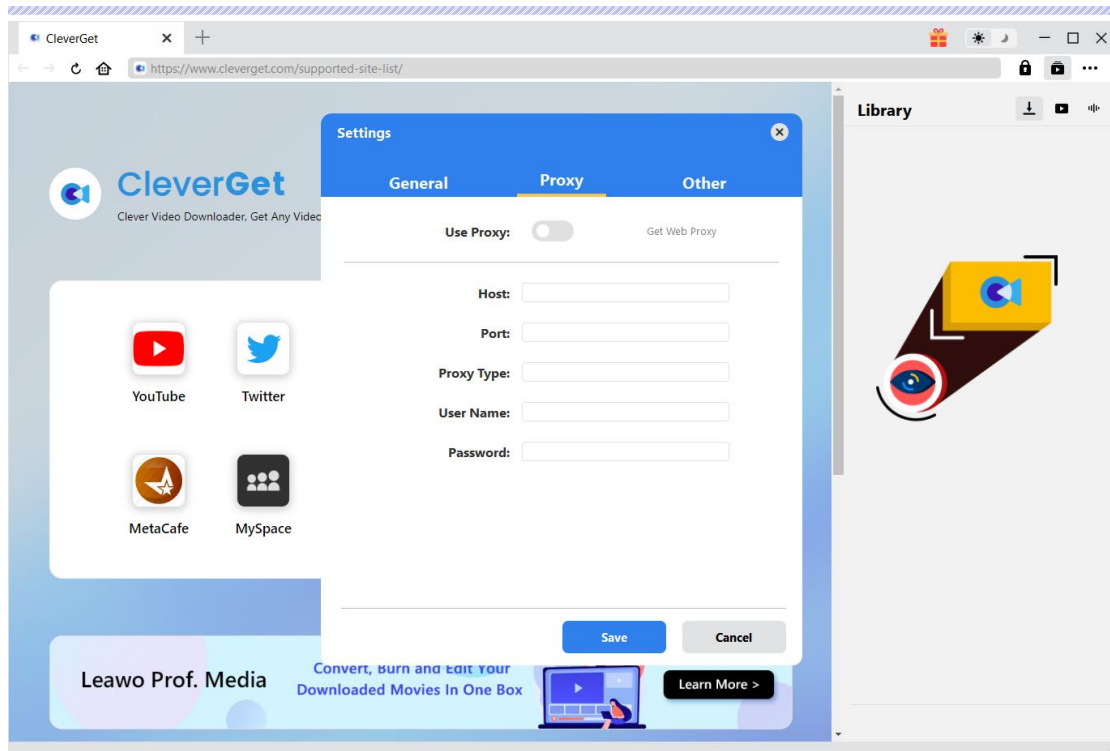

1. **Language.** You can change interface language in this section, where 5 languages are selectable.
2. **Appearance.** It allows you to convert between light and dark mode and you are able to change it directly with “Light/Dark Mode” icon  on the main page.
3. **Max Download Tasks.** Ranging from 1 to 5, maximum volume of download tasks are changable.
4. **Save Video To.** Change output files location here.
5. **Home Page.** Users are happy to find that they are able to set default page or custom page as home page as they like.
6. **New Tab.** Choosing to open a new tab to default page or blank page is available in this section.

Proxy tab

In this tap, you can choose to use proxy or not. Relevant settings to proxy are set here:

- Host;
- Port;
- Proxy Type;
- User Name;
- Password.

Other tab

Other tap includes “Automatic Update” feature and you can click to open or close. If you enable “Automatic Update”, set frequency that you suppose CleverGet to check for update with in “Check the Update”.
